THE LEADING CHOICE FOR BILLETING CAMPS

CAMSS20Q Billeting Camps are the leading choice for troop deployment around the world. The CAMSS20Q Billeting Camp is fully integrated including shelter systems with extreme temperature kits, floors, windows, doors, lights, outlets, environmental control units (ECUs), export crates, generator, power distribution systems and technical manuals.

PLUG AND PLAY

CAM LOKS and Mil-Spec plugs make setting up the camp fast and easy. From the generators to the spider distribution panels to ECUs to the internal distribution panels it is plug and play.

PAST PERFORMANCE

The CAMSS20Q Billeting Shelter is used by all branches of the military services including U.S. Army, U.S. Air Force, U.S. Navy and the U.S. Marine Corps.

NAVY

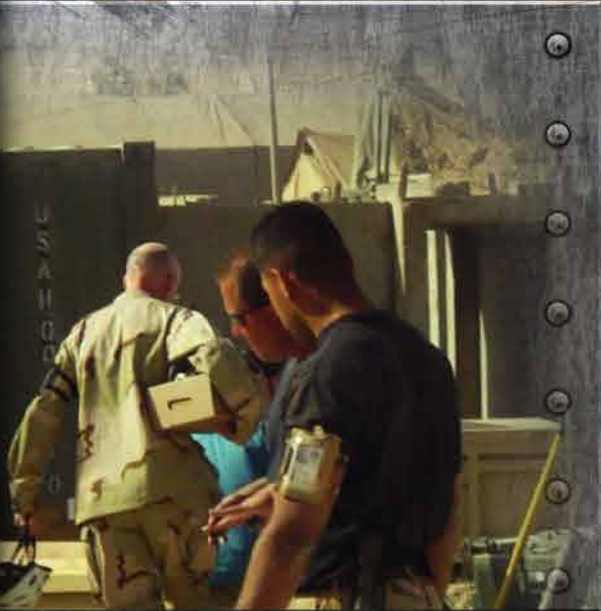

CAMSS20Q SHELTER SYSTEM

CAMSS20Q Billeting Shelter System
During High Wind Tests

The CAMSS20Q Billeting Shelter System is field proven in rugged and harsh environments. Places like Afghanistan and Iraq where the shelters successfully endure extreme heat and sand storms while keeping their occupants cool and comfortable. Shelters in Alaska experience extreme cold temperatures sometimes below minus 40 Degrees F and high winds at times reaching 100 MPH. In hot tropical wet locations, like Guam and Haiti, the CAMSS20Q Billeting Shelter provides a restful break from the extreme heat and humidity.

The CAMSS20Q Shelter is field proven with successful use in tough environments for over a decade. This success comes from careful engineering and robust testing, including high wind, snow load, driving rain and blackout tests.
