

CAMSS GETT Trailer System

• TRIED AND TRUE •

Introducing the GETT Trailer System, the all-in-one rapid deployment package. This system is composed of a **G**enerator, **E**nvironmental control unit, and a **T**ent (shelter) all on a HMMWV-towable **T**railer (GETT). This package allows for convenient transportation via light military vehicles and comes with everything necessary for quick setup of a working shelter.

This trailer system has a variety of TAC Series shelters to choose from. Please call us to discuss other options.

See our CAMSS GETT informational video here: <https://youtu.be/6SN9YhM518w>

CAMSS 18TAC Family of Shelters

CAMSS18TAC15

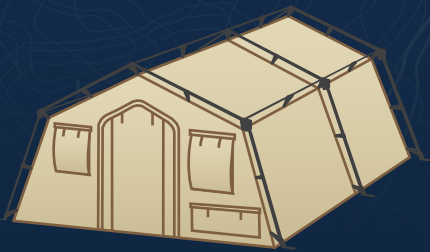

CAMSS18TAC25

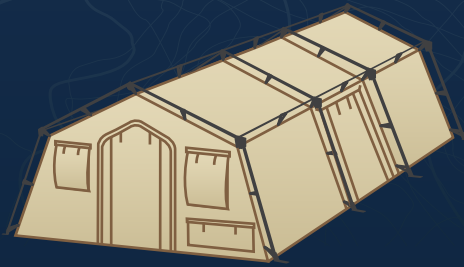

The CAMSS18TAC Shelter Systems are compact, lightweight, and energy efficient. The CAMSS18TAC shelters have one-piece frames and one-piece covers, which allow the shelters to erect in approximately three (3) minutes. **Compatible with our CAMSS GETT Trailer System!**

CAMSS 20TAC Family of Shelters

CAMSS20TAC13

CAMSS20TAC20

CAMSS20TAC26

Like the CAMSS18TAC, the CAMSS20TAC Shelter Systems have one-piece frames and one-piece covers, which allow the shelters to erect in approximately three (3) minutes. Tested extensively by the US Army and independent labs, the CAMSS20TAC family of shelters are built for demanding missions in harsh environments, meeting all the specifications set forth by the US military for wind, rain, and snow.

Also compatible with our CAMSS GETT Trailer System!
