

CAMSS 16Q Shelter System

1-800-984-7678 | shelters@camss.com

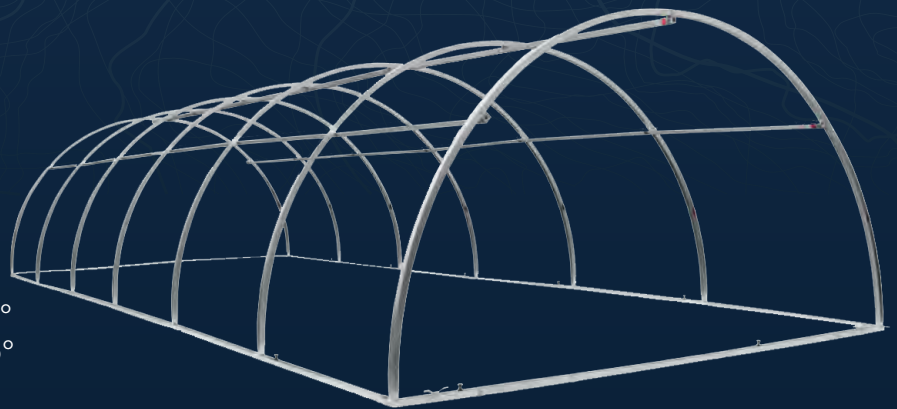

• **TRIED AND TRUE** •

Compact and portable, yet rugged and dependable is the CAMSS 16Q Shelter System. Based on the design and engineering of its big brother, the CAMSS 20Q Small Shelter System, this shelter is even more sturdy and light weight due to its smaller size. The CAMSS 16Q is a great shelter for those looking to keep square footage to a minimum yet still having all the essentials of a standard CAMSS shelter. The CAMSS 16Q shelter systems are widely used in South America.

Main Stats

- 16' Wide x 39' Long x 8' Height
- Setup in 30 minutes with 4 trained personnel
- Compact and rugged shelter system
- 2" x 2" aluminum square tube framing
- 15 oz/sq yd Mil-Spec 44103D fabric
- Designed to Maintain Inside Temperatures of 40° to 80°F in Ambient Temperatures of -25° to 125° F with a military ECU

Engineering

- Engineering calculations demonstrate shelter performance meets a 100 mph wind load of 100 mph per ASCE 7-16.
- Engineering calculations demonstration shelter performance meets a ground snow load of 20 psf ground snow load per ASCE 7-16.

Customization

While the CAMSS 16Q Shelter System is a complete and integrated shelter, at CAMSS we can also customize each order to perfectly fit the needs of your project. Whether that means changing the quantity or placement of window and doors, adjusting the length, or upgrading the lighting or flooring we have several options available.

Accessories

Beyond customization of the shelter we have many accessories available to make your mission easier. Everything to make your shelter feel like a home away from home with Environmental Control Units (ECU), Generators, modular hard flooring, even energy savings SolarFlys and insulated liners. Or if you are in a larger camp setting we also offer items to keep everything integrated and efficient. From multi-shelter power distribution systems (PDS) to vestibules, corridors, hubs, and connectors to link shelters together in a camp complex. Of course the accessories listed on the website are just a common sample of what CAMSS can provide, but we know each project can have unusual or specific requirements and we are here to help.
