

CAMSS 12EX20 SHELTER SYSTEM

• **TRIED AND TRUE** •

800 984 7678 | WWW.CAMSS.COM

The CAMSS12EX20 shelter is a compact, quick to assemble, rugged and durable shelter. It can easily fit in the back of a small pick up truck with much room to spare. Two people can assemble the shelter in 20 minutes. It has an aluminum frame which is light weight and corrosion resistant. The cover fabric is available in heavy duty commercial fabric or Mil-Spec 44103D fabric. The cover material is mildew, fungus and fire resistant. Cover fabric has a typical life of 8 to 10 years depending on location, sun exposure and elevation. Standard colors are white and tan.

Optional add items include stove pipe, HVAC ports, extreme temperature liner kit, fabric floor, and air flow distribution system.

Engineered to a 90 MPH wind load and 20 psf ground snow load, the CAMSS12EX20 is a robust shelter for harsh environments.
