

CAMSS Medical Package

TRIED AND TRUE

With the Medical Field in mind, CAMSS Shelters introduces our new Medical Package that includes our Non-Tactical ECU and CAMSS20QE Shelter System that will best fit your needs. The CAMSS20QE Shelter System can be fully erect within 10 minutes with a trained crew. This shelter utilizes 650 square feet of area to allow medical facilities the option to set up additional screening areas, isolation tent and patients triage centers. The Non-Tactical ECU fights the weather outside of the tent to regulate the inside temperatures to meet your patient's needs.

Highlights

- CAMSS20QE Shelter System is a single frame shelter that allows for a quick set up and strike down
- Customizable options: Flooring, lighting, generator and power distributor to sustain
- Designed to fit universal needs such as, medical, disaster relief, and commercial use
- Non-Tactical ECU has a operational Temperature range of -10° F to +125° F

Combining our Non-Tactical ECU and "Quick Erect" CAMSS20QE Shelter System, will ensure a comfortable temperature within a durable shelter that will allow your staff to execute any situation. Our customizable interior options like hard flooring and interior partitions will optimize your work space and flow. Also offering optional generator and power distribution to sustain, maintain and support the crucial use of your equipment.
