

# LIGHTWEIGHT WITH EXTREME DURABILITY CAMSS TAC LT SHELTER SYSTEM

Introducing one of the lightest and most rugged shelter per square foot of space ever created, the CAMSS 18TAC16 LT. Weighing under 250 pounds, the CAMSS TAC LT is the easiest to transport and one of the fastest to assemble without compromising the same durability you expect from our TAC series of shelters. This complete shelter can be transported by personnel in two bags. It is also designed for extreme environments of 50 mph winds with 55 mph gusts and temperatures of -25° to +125° F.

**LIGHT.  
RUGGED.**

**FAST.  
RELIABLE.**

CAMSS Shelters products are also available through the Defense Logistics Agency (DLA) and the General Service Administration (GSA) for Military and US Government Agency users.
