

CAMSS INDUSTRIAL

• TRIED AND TRUE •

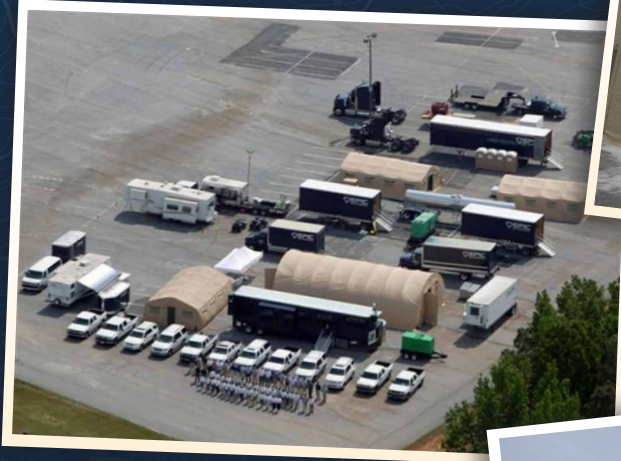

Many industrial applications require unique shelter features to accommodate the complex nature of the equipment involved. CAMSS answers this with shelters to fit the application to include very tall shelters, very short shelters, assortment of vehicle and personnel access points, specially placed inlets and outlets to fit placement of electrical and plumbing, specialized lighting or power distribution and hard flooring that includes cable channels.

Below is a sampling of shelters to demonstrate unique requirements that can be met to move your project forward. Please contact us to discuss the particulars of your project.
